

8-Ch. Dry Contact-over-IP Gateway

TC3847-5

- **Extremely Low Latency**
- **VLAN & QoS Support**
- **Temperature & Power Consumption Monitoring**
- **Extreme Temp (-40°C to +80°C) Optional**
- **Meets or Exceeds IEC 61850-3, IEEE 1613 & NEMA TS-2 Standards**
- **Member of the JumboSwitch® Product Family**

TC3847-5 8-Channel Dry Contact-over-IP Gateway

The TC3847-5 is ideal for situations where a user needs to extend dry contacts across existing Layer 2/Layer 3 networks and low latency is important.

The TC3847-5 achieves minimal end-to-end processing delay (latency) by using high performance buffering and forwarding technology. For reliable communications, the TC3847-5 supports VLAN and QoS for packet prioritization.

Key features include Traffic Monitoring and Statistics, Network Time Server (NTP Server), Remote Firmware Upgrade, Temperature and Power Consumption Monitoring.

Setup, diagnostics, and management are accessed via Web, SNMP, Serial Console, and Telnet. Diagnostics include LED indicators and local and remote loop back to assist with troubleshooting and maintenance.

The TC3847-5 interface card can fit into any available JumboSwitch housing option including 2S Standalone chassis and 1U/2U/4U card cages. Power supply options are 12VDC, 24VDC, -48VDC or 115/230VAC. Standard operating temperature is -20°C to +70°C and the extreme temperature version is -40°C to +80°C.

Applications

Typical applications include extending dry contact across IP networks.

For example, the TC3847-5 is often used to extend dry contact signals point-to-point across Layer 2/Layer 3 Networks.

Environmental & EMI Compliance

The JumboSwitch product family meets all pertinent industry-specific standards for environmental, performance and security requirements including IEC 61850-3, IEEE 1613, NEMA TS-2 and NERC CIP. Furthermore, future JumboSwitch family products will continue to be compliant with both existing and emerging industry standards and requirements, including developing Ethernet standards. Please refer to the charts below for specific standards compliance information.
